Healthy Alternative

Loaves

Modern production lines produce large volumes of part-baked Loaves (bloomers) which are quick frozen and packed for maximum freshness and convenience.

Our selection includes plain and seeded and our great tasting Tiger Loaf.

Our artisan breads are made using a traditional long fermentation process, natural ingredients and no additives before baking in a specialist oven for a crispy crust and delicious hearty flavour.

Authentically hand crafted, artisan breads are not only natural and healthy, but also have outstanding flavour and texture.
